I disagree very strongly with the vision put forward by RCC for St Georges site

Q2 What investment in public services or infrastructure would you like to see as part of any future development?

The investment required needs to be thought through on all fronts very carefully to cope with both intended and unintended consequences of the development. I do not think that this has been done. In any case the MOU should not have been signed until funding was granted.

Q9 Please use the space below to provide any other comments or feedback regarding draft plans for the St George's site

I am very opposed to the plans and think that they have been rushed through to satisfy a financial need for RCC rather than to benefit the electorate of Rutland. The governance utilised has been appalling with little or no input from local elected representatives or interested parties and executives dominating decision making.
